# REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

After reading applicants remarks pertaining to published US application 2003/0100094 and considering that patent application it is deemed that applicants are enabled for all restriction endonucleases which recognize an asymmetric nucleotide recognition sequence, not just restriction endonuclease *Bpu10I*. The instant published application teaches that another restriction endonuclease besides *Bpu10I* (*BbvCI*) which recognizes an asymmetric sequence can be mutated to produce a nickase. The application also mentions other possible restriction enzymes that may work in the method including *Bpu10I*.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles L. Patterson, Jr., PhD, whose telephone number is 571-272-0936. The examiner can normally be reached on Monday - Friday from 7:30 to 4:00.
